The International Cargo Handling Coordination Association (ICHCA), founded in 1952, is an independent, not-for-profit organisation dedicated to improving the safety, security, sustainability, productivity and efficiency of cargo handling and goods movement by all modes and through all phases of national and international supply chains.

ICHCA International's privileged non-government organisation (NGO) status enables it to represent its members, and the cargo handling industry at large, in front of national and international agencies and regulatory bodies. ISP - ICHCA's Technical Panel - provides technical advice and publications on a wide range of practical cargo handling issues, while its Technical Advice Service provides members with recommendations on a wide range of cargo handling and transport issues, drawing on the experience and expertise of the ICHCA global member community.

ICHCA International operates through a series of autonomous national and regional chapters – including ICHCA Australia, ICHCA Japan and ICHCA Canarias/Africa (CARO) – plus Correspondence and Working Groups to provide a focal point for informing, educating, shaping, facilitating and sharing industry knowledge across the global cargo handling community.

ICHCA International is a UK-registered company limited by guarantee.
