

ICHCA Welcomes Port Technology International as New Member

The global association representing cargo handling companies, ICHCA International (ICHCA) is delighted to welcome Port Technology International, the leading multi-channel media company.

London, 6 March 2023

This new partnership has been welcomed by both parties as a framework to support their mutual interest in the dissemination of knowledge, best practice and commentary on the challenges and issues facing the global cargo handling community.

In welcoming the new member, Richard Steele, ICHCA International's CEO stated, "Co-operation with key media organisations is critical to the safe and efficient performance of today's increasingly complex supply chains. At ICHCA we remain committed to our efforts to improve safety, security and sustainability and with the help of Port Technology International, we can continue to spread our key messages, through their editorial, webinars and industry events".

With four upcoming events and a packed editorial schedule already planned for 2023 Port Technology International is delighted to become a member of the ICHCA International. Director of Operations for Port Technology International, Tracy Catlin commented, "As a leading multimedia ports and terminals platform, safety in cargo handling is a key priority for Port Technology International and its readership. The solutions in which our sector applies improving productivity, safety and efficiency of cargo handling worldwide are part of a collaborative effort to which we aim to promote and discuss across the global supply chain. Through ICHCA International's diverse membership, case studies, and event offerings, Port Technology International aims to partner a media hub for increased health and safety awareness in the industry, highlighting the importance of training. We look forward to collaborating with ICHCA International's members in the future and sharing knowledge across our mutual partners for the improvement of cargo handling worldwide".

The current calendar of events hosted by ICHCA's new member can be found here:

About ICHCA International

Established in 1952, ICHCA International is an independent, not-for-profit organisation dedicated to improving the safety, productivity and efficiency of cargo handling and movement worldwide. ICHCA's privileged NGO status enables it to represent its members, and the cargo handling industry at large, in front of national and international agencies and regulatory bodies, while its Technical Panel provides best practice advice and develops publications on a wide range of practical cargo handling issues.

Operating through a series of national and regional chapters, including ICHCA Australia, ICHCA Japan and plus Correspondence and Working Groups, ICHCA provides a focal point for informing, educating, lobbying and networking to improve knowledge and best practice across the cargo handling chain.
